Rounds shot in tournaments or other events can count as league rounds, provided those rounds are entered into a scorebook; are shot at our Club; and are shot within the dates of the season segment (first half or second half). See Summer League Rules for details.

Shooters can still shoot ahead or in arrears within season segments. Extra rounds can still be shot, except in Back-em-up Trap, within season segments, but once a round is put in the book it is final.

We will make and post divisions and First-half winners after June 11<sup>th</sup>.

The online scoreboard will continue to show each team's current ranking within each league, and after the first-half segment when divisions are made, each team's current ranking within its division.
